BIOLOGICS

Integrated Nutrition System

3-Step Quick Start Guide

STEP 1

STEP 2

STEP 3

Turn pouch over and shake vigorously for 5 seconds. Mix food and warm water. Wait 3 minutes.

Add supplement mix and combine in bowl.

Add salmon oil. Leave on top of food **or** mix in as your dog prefers.

Give your dog what they need and crave!

Measure food, warm water, supplement and salmon oil per feeding chart on back of this card.

Total to Feed Each Day

FOOD, SUPPLEMENTS & SALMON OIL

ALL THREE COMPONENTS OF THE SYSTEM MUST BE FED TOGETHER

Dog's Weight In lbs	Food in Cups	Warm Water	Supplement Mix	Salmon Oil
5 - 15	¾ - 1½	½ - 1 cup	¼ - ¾ scoops	1 - 2 pumps/ ⅓ - ⅔ teaspoon
16 - 30	1½ - 2½	1½ - 2½	¾ - 1½	2 - 4
31 - 45	2½ - 3¾	2½ - 3¾	1½ - 2¼	4 - 6
46 - 60	3¾ - 4	3¾ - 4	2¼ - 3	6 - 8
61 - 75	4 - 4¾	4 - 4¾	3 - 3¾	8 - 10
76 - 90	4¾ - 5½	4¾ - 5½	3¾ - 4½	10 - 12
91 - 105	5½ - 6	5½ - 6	4½ - 5¼	12 - 15

For every 15 lbs over 105 lbs, add ½ cup of food, ½ cup of warm water, ¼ scoop of supplements and 2 pumps of oil per day.

The feeding chart above is a guide. The requirements of your dog may vary based on age and activity level. If needed, only adjust the amount of food.

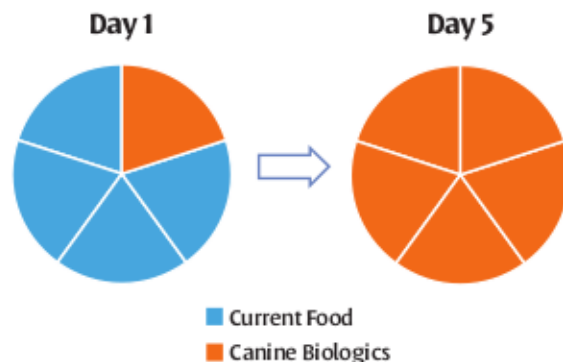

Supplement and salmon oil amounts **do not vary** and are specifically based on body weight only.

MY DOG NEEDS PER MEAL:

Cups of Food: _____ Scoops of Supplement: _____ Pumps of Oil: _____

Switching to Canine Biologics

Over 5 days - add 20% per day while decreasing your dog's current food by the same amount.

Keep in Mind

Supplement and salmon oil amounts do not vary and are specifically based on body weight only.

Check your dog's weight and body condition often.
Adjust amount of food as necessary.

If your dog is overweight, let your veterinarian help you in developing an appropriate feeding plan.
